SUMMARY

Full Stack Engineer with foundation in core Computer Science, qualified GATE CSE 2026. Proficient in the MERN stack, microservices, AWS, and Docker. Student at NIT Durgapur focused on building scalable, AI-enhanced software systems.

WORK EXPERIENCE

Full Stack Engineer (Contract)

Sep '25 – Nov '25

Inkcity

Remote

- Engineered entire application using MERN Stack to ensure high performance and 99% system uptime for all features.
- Integrated backend endpoints and resolved 20+ frontend issues to deliver a fully responsive, cross-browser compatible website.
- Managed development lifecycle, ensuring production-level stability and quality for deliverables.

PROJECTS

Remote Code Execution Platform | *React, Node.js, C++, Docker, AWS, MongoDB* |

- **Microservices Architecture:** Engineered a decoupled system utilizing Unix Domain Sockets for low-latency IPC between a Node.js API gateway and a custom C++ execution daemon.
- **Secure Sandboxing:** Isolated untrusted code execution by dynamically orchestrating ephemeral Docker containers with strict resource constraints (256 MB RAM, 2.0s CPU time limit).
- **Real-Time Processing:** Deployed the highly available stack on AWS EC2, leveraging Socket.io to evaluate user submissions and deliver sub-second grading verdicts in real-time.

Operational Triage and Collaboration System | *MERN, Socket.io* |

- Constructed a JWT-secured visual reporting tool, reducing manual incident logging time by 40%.
- Implemented 'Zone-Based' workspaces to ensure 100% accurate routing of issues to experts.
- Slashed resolution latency by 50% via Socket.io real-time collaborative debugging.

SKILLS

Programming Languages: C, C++, Python, JavaScript, HTML, CSS, SQL

Frameworks & Libraries: React.js, Express.js, Node.js, Bootstrap, Pandas, NumPy, Matplotlib, Seaborn, LangChain, LlamaIndex

Tools & Platforms: VS Code, Git, GitHub, Cloudinary, AWS, Docker, Jenkins, GitHub Copilot, Cursor, Claude Code

Databases: MySQL, MongoDB, Pinecone

Concepts: Data Structures and Algorithms (DSA), DBMS, Operating System (OS), Computer Networks (CN), Computer Organization & Architecture (COA), Digital Logic, Theory of Computation (TOC), REST APIs, OOP, DevOps, CI/CD Pipelines, JWT, RAG, Prompt Engineering, AI, ML, OpenAI/gemini API, Windows, Linux

ACHIEVEMENTS

GATE CSE 2026: Qualified with a score of 446.

JEE Mains 2023: Ranked in the top 4.5% among 1.4 million candidates nationwide.

HackTheRank: Top 20 Finalist in HackTheRank.

Open Source: Merged 7 Pull Requests focused on bug fixes, feature implementation, and code optimization .

Hacktoberfest: Participated in and completed Hacktoberfest.

LeetCode: Solved 200+ problems .

CodeChef: 2-Star Coder (Max Rating: 1452) .

EDUCATION

NIT Durgapur

Aug '23 – May '27

Biotechnology

Durgapur, WB

Kendriya Vidyalaya Katihar

2021

XII (CBSE)

Katihar, Bihar

Kendriya Vidyalaya Katihar

2019

X (CBSE)

Katihar, Bihar

POSITION OF RESPONSIBILITY

President

Aug '23 – May '27

Evolvere, NIT Durgapur

Durgapur, WB

- Spearheading club operations, budgeting, and multi-tier teams to execute institute-wide events for 100+ attendees.
